

EXEC. AGENDA ITEM 6.c

CSAS Website Report WWW.CSAS.NET

**Erasmus Okine
June 2, 2003**

After a slow start at the beginning of the year the Website gathered steam with the posting of various items such as the: President's message, Membership of the executive, Minutes and Report from the 2002 meetings in Quebec, Notice for nominations for 2003 awards, Award winners for 2002, and Notice of the annual meeting in Saskatoon.

The glitches associated with access to former members of the executive on the "AIC site" when one searched for CSAS on the Internet was rectified. However, these glitches may occur again since each local committee sends a different link to AIC and these are not removed automatically by AIC. We note above there are still some teething problems with the site especially the links through the AIC site and we will continue to work to resolve them

We are in the process of creating "useful links" to enable members access sites relevant to "job searches" etc at the various AAFC and the major Universities sites in Canada.

I also would like to thank the President Dr. Scott for helping to ensure that messages, which, need to be posted, get posted. I would encourage the membership to continue to send their suggestion for improvements to the Website.

Respectfully submitted,

Erasmus Okine
