

Professor of Swine Production

New faculty position open for application

Department of Animal Sciences, Faculty of Agriculture and Forestry, Pontificia Universidad Católica de Chile

The Department of Animal Sciences, Faculty of Agriculture and Forestry at Pontificia Universidad Católica de Chile invites applications for a new position in Swine Production at the level of Assistant Professor. This position is part of a new area within the department which includes the development of research and teaching in swine production and management.

The department seeks an animal scientist with expertise and interest in regional, national, and/or international research associated with pig husbandry, swine production, and innovative production systems development.

The successful applicant will be involved in teaching as well as research, and must also be prepared to actively participate in the development of the department to the benefit of the entire institution, as well as competently developing their own area of expertise.

The successful candidate will be expected to develop an externally funded research program, supervise M.S. and Ph.D. students, and teach Swine Production plus another undergraduate/graduate course in her/his specialty.

Candidates must have a Ph.D. in an appropriate field, obtained within the last five years. Preferably with a record of peer-reviewed publications and scholarly accomplishments commensurate with experience and demonstrated grant success or strong evidence of potential.

Interested candidates should document relevant competence, which will be evaluated by a committee. Weight will be given to academic accomplishment and publications, as well as to teaching ability and experience; national and international conference participation; collaborative research project participation; and the applicant's general ability to help the department meet its goals. Applicants deemed competent may be invited to the college for an interview and asked to give a lecture.

Applicants should follow the link: <http://www3.puc.cl/seleccionacademicos/php/index.php>, and submit your application form.
