or fax (613) 594-5190

An invitation
to join the

Canadian Society of Animal Science

Mission of CSAS

To facilitate the discovery and dissemination of knowledge in animal science for the benefit of society.

Objectives of CSAS

- Provide opportunities for members to exchange ideas about research, teaching, and extension in animal science.
- Promote public policy related to animal science and the industry.
- Provide information on scientific issues and public policy related to the animal industries.

CSAS History

The Canadian Society of Animal Science originated from Eastern and Western sections formed over 70 years ago. The Western Canadian Society of Animal Production was organized in 1925 with Professor Sackville from the University of Alberta as its first president. The following year saw the formation of the Eastern Society of Animal Production with Professor Toole from the Ontario Agricultural College as its first president.

A national executive was established in 1951, and in 1971, the name of the Society was changed to the Canadian Society of Animal Science. The Society was incorporated in 1985 and is an Association Member of the Agricultural Institute of Canada (AIC). Further details on the Society are contained in the *Official History of the Society 1925 - 1980*, prepared by K. Rasmussen and published by the CSAS, and on the CSAS web page.

www.csas.net

Advantages of Membership in CSAS

Membership in CSAS provides significant professional benefits for members:

- Reduced registration costs at the national annual meeting. The annual meeting includes technical and scientific papers, symposia, and discussion of general problems influencing the animal industry as well as the business affairs of the Society.
- Society website (www.csas.net).
- Membership directory.
- Optional print and/or electronic subscription to the *Canadian Journal of Animal Science* which is edited by the CSAS and published four times a year (journal website: www.nrc.ca/aic-journals).
- Reduced journal subscription rates.
- Reduced page charges for published manuscripts in the CJAS.
- Society and AIC sponsored awards.
- Opportunities to participate as consultants in AIC International Programs.
- Establishment of contacts within a professional society.

Organization and Membership

The Canadian Society of Animal Science is a national organization with an elected executive committee. CSAS is an Associate Member of the AIC.

Membership is open to persons currently or previously employed in research, teaching, administration, extension, production, marketing, or otherwise interested in any field pertaining to the animal industry. There are three categories for membership including regular members, retired members, and student members (undergraduate or graduate).

CSAS Awards

Fellowship Award This is the highest honour bestowed by the Society to members who have made an outstanding contribution in any field of animal agriculture.

Award for Excellence in Nutrition and Meat Sciences This award is made to recognize excellence in teaching, research, or technology transfer in the area of animal nutrition or meat science.

Award for Technical Innovation in Enhancing Production of Safe Affordable Food (Sponsored by Elanco) This award recognizes excellence in technical innovation and teaching with particular emphasis in the fields of biotechnology, genetics, physiology and animal behaviour. The recipient has demonstrated a contribution to the production of safe and affordable food. CSAS and AIC fellowship recipients are ineligible.

Young Scientist Award This award recognizes the achievements of new members of the research community who have demonstrated excellence in any area of animal science.

Animal Industries Award in Extension and Public Service Awarded to recognize outstanding service to the animal industries of Canada in technology transfer, leadership, and education in animal science.

Honorary Life Memberships These awards recognize active members who have recently retired and have shown support of the CSAS aims and objectives.

Graduate Student Paper Competition Awards These awards are made to the top three presentations during the Graduate Student Competition at the national annual meeting.

Graduate Student Poster Competition Award This award is made for the best poster presentation at the national annual meeting.

Undergraduate Awards These are awarded by the Society to recognize superior academic achievement during the first three years of study within each of the Faculties of Agriculture at each Canadian university.
